

Meeting with students of the Petrozavodsk Forestry Technical School

18 February 2021

The students were told about the directions and profiles of training at the Institute of Forestry, Mining and Construction Sciences of PetrSU, as well as about the opportunity to get higher education at three levels of training: bachelor's, master's and postgraduate studies. Associate professors of the Department of Technology and Organization of the Forestry Complex I.V. Morozov and Yu.V. Olkhin met with 3rd and 4th year students of the specialties "Forest and forest park economy" and "Garden and park and landscape construction" and teachers of the Petrozavodsk forestry technical school.

During the meeting, the students were told about the activities of the department, about the directions and profiles of training, including about new two promising profiles, about the scientific and project activities of employees and students, as well as about the opportunity to get higher education at three levels of training: at bachelor's degree, in master's degree and graduate school.

The students became interested in the opportunity to continue their education at a higher educational institution and actively asked questions, in particular, about the Military Training Center , about the places of passing educational and industrial practices, about further employment .
